---

Jeff:

I will be able to come out the morning of July 8 and other times when my schedule allows. I am also looking at availability of others in my office who have hydrogeo skills.

Thanks-Jim

Great timing!

I was just out there yesterday with a driller scoping the potential locations.

We are planning a mobilization on July 8.

James, we would love having you or a colleague out there with us. There are going to be judgement calls to be made and it would be helpful to have input from the county regarding alternate locations or when to call a dry hole. We have about 250 of drilling budgeted, but with the disturbance and topography and lack of nearby wells, no one knows what to expect.

Hi Jeff,

Just checking in on status of the wells. Do you have an update on schedule?

Thanks,  
Jim
